## Expanded Polystyrene Degradation Solution

### Environmental Protection Department Visiting WIT's Recycling Facility on 1 March 2021

On 1 March 2021, we (“WIT Holdings Limited” or “WIT”) arranged a site visit for the Waste Reduction and Recycling Division of Environmental Protection Department (EPD) to learn more about our patented Ultimo Technology™ and the expanded polystyrene (EPS) recycling operations.

*A Group Photo of the EPD and WIT teams*

**Left-2: Andy Lo**  
Chairman of WIT

**Left-3: Raymond Wong**  
Principal Environmental Protection Officer

**Left-4: Yip Hing Kwok**

**Right-1: Bowie So**  
Senior Business Development Manager of WIT

**The rest**  
Members of EPD team

Nelson Chan, our Technical General Manager, led the introduction for the degradation and purification operations involved in treating the EPS wastes; and Bowie So, our Senior Business Development Manager, shared our latest movements and upcoming plans regarding our “Expanded Polystyrene Recycling Vehicle” with the EPD team.

*Introducing the Ultimo Technology™*

WIT Holdings Limited

Tel : (852) 2969 7923 | Email : info@withholdings.com | Website : www.withholdings.com

*Introducing a prototype of our mobile degradation device*

*Introducing the recycled products from EPS wastes*

WIT exchanged views with the EPD team on current EPS recycling environment in Hong Kong and obstacles encountered when recycling EPS wastes. We wish that the government can put more efforts in promoting the importance of EPS recycling and put forward related legislation in controlling the disposal of EPS wastes by making appropriate charges at source in order to improve the EPS recovery rate.
